Weinig CombiPact Finger Jointer Series-

Simple and optimised feeding

The outstanding feature of the CombiPact is its double shaper. The two shaping units facing each other ensure a remarkable capacity and high speed. Due to the joint base body of these opposite shaping units, the line is very compact and robust. The design, which is also low in vibration, provides for excellent results.

Overview and features

Specifications

Minimum workpiece length	150mm
Minimum workpiece width	40mm
Feed speed	40m/min (vertical joint)
Motor	22kW (29.5hp)

Specs shown are for a standard model, but Weinig offer a wide variety of options, so talk to us about customising a machine to suit you.
