Tormek HTK906 Hand Tool Kit-

Sharpen your knives, The HTK-906 Hand Tool Kit includes all our jigs for sharpening the vast majority of knives in your home. This kit includes the KJ-45 Centering Knife Jig, which you can use to sharpen everything from regular kitchen knives to outdoor knives, even lawnmower blades. In a nutshell, a very versatile jig!

The kit also includes the KJ-140 Wide Centering Knife Jig. The wider clamp stabilizes the long and flexible blades of filleting knives, for example. This gives you an even bevel and angle along the entire blade, even on knives with flexible blades that are otherwise difficult to sharpen uniformly. Also included is the SVM-00 Small Knife Holder to be used together with the KJ-45 Centering Knife Jig. These allow you to easily sharpen even your smallest knives.

Sharpening scissors, axes and other hand tools, Every household has at least one pair of scissors. And more often than not it's a blunt pair of scissors. With the included SVX-150 Scissors Jig you easily make your scissors sharper than when they were new.

The AX-40 Axe Jig is a very simple and precise jig which allows you to sharpen all types of axes. It allows for sharpening a concave, flat, or convex bevel on axes with straight or rounded edges. No matter what the axe is used for, working with a sharp edge is both easier and safer.

The SVS-38 Short Tool Jig sharpens most short hand tools, from small carving chisels and gouges, to flathead screwdrivers and more.

Stylish and convenient storage, All jigs and accessories included come packaged in the TC-800 Tormek Case together with the HTK-00 Storage Tray for Hand Tool Kit. This specially designed packaging makes it easy to store and keep track of your jigs and accessories for sharpening tools at home or in your workshop. A stylish leather handle also makes the case easy to carry around.

The case is made of a durable material and has a sliding lid that keeps everything in place. The storage tray is made of EPP, a material that's highly durable and perfect for storing your jigs for many years to come. The TC-800 Tormek Case is stackable, so if you have another case, they can be stacked perfectly on top of each other.
